

WASHSTAND FURNITURE

dade SALONE

With the new bathroom furniture range **dade SALONE**, the bathroom becomes presentable. The straight-lined and handcrafted high-quality bathroom furniture was designed by the dade architects created in collaboration with Timberline. dade SALONE can be perfectly combined with dade ELARA or dade ELEMENT countertop concrete washbasins.

The width of 120cm and the depth of 50cm offers generous space, while the restrained design looks calm and noble. The design is characterized by the 10mm wide surrounding borders, which were worked as mitre joints for the wood and as butt joints for the concrete. The tip-on drawers with a height of 20cm take up a lot of bathroom utensils.

dade SALONE Washstand furniture

without washbasin

with dade ELARA

with dade ELEMENT 90 with wall tap

Product features

Drawer types	Blum Legrabox (standard), Blum Legrabox with concrete sides or solid wood drawers.
